

TO: **GRADE PreK-12 STUDENTS AND PARENTS**  
 FROM: Kevin Seymour, High School/Middle School Principal  
 Timothy Filiatrault, Elementary Principal  
 Chris Grieco, Director of Technology  
 SUBJECT: **GUIDELINES AND REGULATIONS FOR ACCEPTABLE USE OF DISTRICT TECHNOLOGY RESOURCES**

The availability of these technology resources creates a need to recognize many new responsibilities that will confront the students and staff. The district has installed an Internet filtering system that will help to prevent inappropriate use of the Internet. We will continuously monitor computer workstations and will strive to maintain a secure network environment for the students and staff. The Board of Education adopted an *Acceptable Use Policy for Internet Access*. That policy is printed in the student handbook.

A copy of the middle/high school appropriate use regulations is attached to this letter. Students must read the regulations and sign the form below. A parent/guardian is also to sign the form to indicate that they have received and reviewed these regulations.

STUDENT ACCOUNTS WILL BE CREATED WHEN STUDENTS FIRST ENTER THE DISTRICT. STUDENTS WILL KEEP THIS ACCOUNT THROUGHOUT THEIR SCCS CAREER. THIS FORM MUST BE SIGNED BEFORE AN ACCOUNT IS ENABLED. STUDENTS WHO ARE ASSIGNED AN ACCOUNT IN ELEMENTARY SCHOOL WILL ONLY NEED TO HAVE THIS FORM RE-SIGNED WHEN THEY BEGIN SIXTH GRADE. THE CONTENTS OF THIS FORM ARE AVAILABLE IN THE HANDBOOK GIVEN TO PARENTS/STUDENTS EACH YEAR.

I have read the guidelines and regulations for the use of Sandy Creek’s district technology resources and request that my network account be activated.

I understand that failure to comply with district policies and regulations may result in disciplinary action as well as suspension and/or revocation of district technology resource privileges.

## **District Technology Resources (DTR) User Regulations**

Sandy Creek Central School (SCCS) is committed to optimizing student learning and teaching. SCCS considers student access to District Technology Resources (DTR) to be a powerful and valuable educational and research tool, and encourages the use of computers and computer-related technology in district classrooms solely for the purpose of advancing and promoting learning and teaching.

All users of SCCS's computer network and the Internet must understand that use is a privilege, not a right, and that use carries responsibility.

SCCS assumes no responsibility for the quality, availability, accuracy, nature or reliability of the service and / or information provided. Users of the DTR use information at their own risk. Each user is responsible for verifying the integrity and authenticity of the information that is used and provided.

SCCS will not be responsible for any damages suffered by any use, including, but not limited to, loss of data resulting from delays, non-deliveries, misdeliveries, or service interruptions caused by its own negligence or the errors or omissions of any user. The district also will not be responsible for unauthorized financial obligations resulting from the use of, or access to, the district's technology resources.

Further, even though SCCS may use technical or manual means to regulate access and information, these methods do not provide a foolproof means of enforcing the provisions of the district policy and regulations.

**The SCCS District will use a variety of educational methods to educate all of our students about the acceptable and responsible uses of our electronic and digital resources. The scope and content will be age appropriate and conform to CIPA and NCIPA requirements and also reflect the technology requirements of the New York Core Curriculum State Standards.**

### **ACCEPTABLE USE AND CONDUCT**

- Access to the DTR is provided solely for educational purposes and research consistent with the district's mission and goals. The SCCS District recognizes that the mobile devices issued to faculty and staff are integral to their lives and will also be used for personal reasons on a minimal basis.
- Use of the DTR is a privilege, not a right. Inappropriate use may result in the suspension or revocation of that privilege.

#### **ACCEPTABLE USE AND CONDUCT AS THEY PERTAIN TO THE DISTRICT NETWORK:**

- Each individual in whose name an access account is issued is responsible at all times for its proper use.
- All network users will be issued a login name and password. Passwords should be changed periodically.
- All network users are expected to abide by the generally accepted rules of network etiquette. This includes being polite and using only appropriate language. Abusive language, vulgarities and swear words are all inappropriate.
- Network users identifying a security problem on the district's network must notify the appropriate teacher, administrator or computer network coordinator. Under no circumstances should the user demonstrate the problem to anyone other than to the district official or employee being notified.
- Any network user identified as a security risk or having a history of violations of district computer use guidelines may be denied access to the district's network.
